

Student Survival Check List

When you arrive you will experience information overload. This list may help you to keep yourself and your property safe!

□ Personal Items

- Try to register your property before you arrive. Registering won't stop your property from being lost or stolen - only you can do that by treating your room door as your front door and ALWAYS locking it. Registering will help us return your property to you in the event of it being recovered. If you have not already registered your property, log on to www.immobilise.com for details of how to register for free.

□ Insurance

- Clarify if your parents insurance covers your personal items while at Uni. If in doubt check. If you do not have insurance we strongly recommend that you take out a policy.

□ Cycles

- Cycling is a big part of city life in Cambridge. A good quality bike lock will help to prevent you from becoming a victim of bike theft (look for Sold Secure attack tested products min: Bronze standard).
- Bike lights are mandatory during the hours of darkness. Front and rear are the minimum requirement by law. A set of lights will cost as little as £10 the fine for no lights is £30 but what cost do you put on your life?

Some good sites to visit for security and personal safety information are: www.crimereduction.gov.uk & www.suzylamplugh.org

We look forward to seeing you in October and wish you a good and safe year. If you have any questions please don't hesitate to contact us 01223 823733 or 0345 456 456 4.
